

10th International Symposium on Sturgeons  
Yichang, China, 20-25 October 2025

## **Guidelines for Submission of Oral Presentations and Posters**

### **Presentation Outlines and Requirements**

1. Power Point or pdf are the only media acceptable.
2. Please provide full title, name of presenter and affiliation of presenter on the title slide
3. Please try to keep the size of your presentation file to a minimum (< 10 mb if possible). For example, reduce the image size of digital images and avoid video clips.
4. Presentations are scheduled in 20-minute blocks. The time will be split up by:
  - Speaker introduction (1 minute);
  - Presentation (15 minutes);
  - Question and answer period (3-4 minutes).
  - The moderator will notify you when your presentation reaches 10 minutes and 14 minutes. You will be asked to stop presenting after 15 minutes and to leave the podium at 20 minutes.
5. Presentations must start and end on time, no exceptions, because they are coordinated with concurrent sessions.

### **Presentation Submission**

1. File Labelling: Presentations must be labelled with the following format to indicate the presenter's session, day and time of the talk, and presenter name.

Session\_Day\_Time\_Pesenter Name. Time is as listed on the program.

For example: Regulated Rivers \_Tuesday\_0940\_James\_Crossman.pptx

2. Early Submissions (Encouraged!!): ISS10 Organizing Committee encourages early submission of presentations to make meeting logistics as smooth as possible for organizers.

Please submit your presentation by email ahead of the meeting to [iss10-2025@whu.edu.cn](mailto:iss10-2025@whu.edu.cn)

When you register at the meeting on Monday October 20<sup>th</sup>, your talk will be uploaded and you can review the file at that time to ensure accuracy.

10th International Symposium on Sturgeons  
Yichang, China, 20-25 October 2025

3. Submission at the meeting: Submission is required at the registration table Sunday October 19<sup>th</sup> for all presenters. You will be able to load and review your slides at that time.

- Should you be arriving on a later day, please arrive at your session 20 minutes before it begins or find a meeting organizer who can help you get your talk loaded earlier.

### **Guidelines for Posters**

These guidelines are reproduced from the American Fisheries Society guidelines for posters; please see [http://afs.confex.com/afs/Carline\\_Poster\\_guidelines-3.pdf](http://afs.confex.com/afs/Carline_Poster_guidelines-3.pdf) for more information when designing your poster.

- A poster should consist of easily read text and graphics describing the objectives, methods, and findings of the study.
- Posters are to be arranged as a single large display (suggested: 4' W × 3' H [1.2 m × 0.9 m] – landscape orientation).
- Posters should be laminated or use a high-quality glossy paper
- While ISS10 organizers will assist with attaching posters to the walls or poster boards, presenters should plan to bring their own materials. ISS10 organizers will work with the venue to determine how posters will be attached and will coordinate with poster presenters as needed.
